

## COLLEGE OF ST GEORGE, WINDSOR CASTLE ORGAN SCHOLARSHIP 2023

The Dean and Canons of Windsor invite applications for the Organ Scholarship at the College and Chapel of St George, tenable for one year from September 2023.

The intention of the scholarship is to provide an organ student with high standards of training in a collegiate environment; to develop particular skills in service playing and accompanying, solo repertoire and choir training. The Organ Scholar is one of a team of three organists; the Director of Music is Mr James Vivian and the Assistant Director of Music is Mr Luke Bond. The Scholarship is open to those who already possess the necessary permissions and documentation to work in the UK.

The Organ Scholar is normally either a gap-year or post-graduate student. Many past holders of the scholarship have become eminent organists, church and cathedral musicians, conductors and freelance performers. In recent times, many have gone on to hold Organ Scholarships at Oxbridge or further study at the major UK music colleges and conservatoires. A full list of former organ scholars can be found below.

The Organ Scholar is expected to be 'in residence' during Choir terms; there are also some occasions when duties at St George's may necessitate residence at Windsor for periods outside the academic term. These include playing for Sunday services in the absence of a visiting choir. The scholarship is currently £6,558 per annum. In addition, accommodation (with piano) is provided along with heating and any council tax levied by the local authority. (Please note that other costs, such as telephone use, electricity and TV licence are the responsibility of the Organ Scholar.)

The Organ Scholar is required to follow the same code of conduct as staff of St George's including following the Dean & Canons' Administrative Regulations and the Code of Conduct as laid out in the HR handbook. Appointment to the Scholarship is subject to security and DBS clearance. There is also an informal Organ Scholars' Handbook (issued by the Music Dept) which covers some of the more practical aspects of life as part of the Music Department.

There are many opportunities for the Organ Scholar to develop their skills assisting the Director of Music and Assistant Director of Music. The main duties are as follows:

- The training of the choristers and probationers at the daily rehearsals and at weekly theory sessions;
- Directing and/or accompanying the choir as required at services, concerts and events as required (for certain services, concerts and events an additional fee may be paid);
- Certain College events from time to time which require musical input.
- The Organ Scholar acts as the Choir's Librarian.

In addition, the organ scholar assists the other members of the Music Dept with other tasks as required. Also, there are opportunities for the Organ Scholar to gain wider experience assisting in the music at St George's School (arranged by private agreement with the School's Director of Music).

## THE AUDITION PROCESS:

After the closing date, short-listed candidates will be sent details concerning the day including any music that is required to be prepared. The day is split into two parts:

### PART ONE

- Candidates will perform two pieces of contrasting styles of their own choice (one of which should be from the Baroque period). As a guide, each candidate is allocated in the region of twenty minutes in total for their audition (which includes the keyboard tests) so please be aware that candidates may be asked only to play a section of their chosen pieces or stopped if time is running short. Whilst it may be preferable to limit your two pieces to twelve minutes in total, it is recommended that you bring pieces that you feel confident performing (without any prior rehearsal time on the organ) and feel represent your abilities as a player. The in-house organists will be pleased to help with registration.
- Candidates will also be asked to demonstrate some fluency in the keyboard skills required for the position: sight-reading, transposition, keyboard harmony and improvisation.

After all candidates have played, a further short-listing will take place before the second part of the audition process.

### PART TWO

- Candidates may be asked to perform their pieces again and undertake additional keyboard and musicianship tests.
- Candidates will be asked to take a short rehearsal with the probationers. They will rehearse a short section from music that will be supplied beforehand and are not expected to deliver a polished end performance, but rather to demonstrate the ability to teach musical skills such as intervals, rhythm and pitch, etc.
- There will also be an interview with the Dean and Canons of Windsor.

**Applications** to Mrs Lesley Hockin, The Chapter Office, The Cloisters, Windsor Castle, Berkshire SL4 1NJ, [chapteroffice@stgeorges-windsor.org](mailto:chapteroffice@stgeorges-windsor.org), **no later than Tuesday 13 September 2022** together with the names, addresses, telephone numbers and email addresses of two referees, one of whom should be able to attest to the suitability for such an award.

**Auditions and interviews will take place on Tuesday 27 September 2022.** All applications will be acknowledged and short-listed candidates invited for an interview. Any offer of the scholarship is conditional on satisfactory references in addition to DBS and security clearances.
